

LONDON MUSIC BOOSTERS

Patron Program

The London Music Boosters sole purpose is to help further music education, including extra-curricular activities, financially and physically in the London City Schools. We support programming in all grade levels and in all musically related arts. FREE membership in the Boosters organization is extended to anyone interested in the support and growth of the organization. Many give of their time and talents to support the students in our schools and each of their contributions have contributed greatly to the success of our programs. We welcome all who wish to share in our students' success by becoming active in London Music Boosters!

The financial needs of our fine music programs are many and cannot be fulfilled solely by public education funding. Our Patron Program affords those who are able the opportunity to enhance the quality of our music education by providing additional funding that is not covered by the London City School District. By joining our Patron Program, you are helping to provide the resources necessary to ensure we continue our long history of Red Raiders musical excellence.

Please consider joining our Patron Program at the following giving levels:
